

Community Information Meeting

The Presentation School Foundation Community Center is proposing modifications and improvements to the property including a wheelchair and baby stroller ramp, improved vehicle site lines and safety for traffic exiting onto Tremont Street, a re-configured parking area, and re-landscaping.

Please join abutters, neighbors and community members to learn more about the proposed changes, the construction schedule, and our plans to mitigate the impact.

Wednesday February 6

6:30 PM

Presentation School Foundation Community Center

Lower Level
